History:

2003 My parents bought me a Blata 2.5
2004 I got a Blata 4.2 Junior
2007 My Blata was upgraded with a factory tuned RM14 engine
2008 I got a "seat" in "Blata Racing Team Denmark", and since I was now a Senior, I needed a new Minibike, it was a nice Blata B1 Victory Kit. This was the year I started driving Yamaha YSR 80 in Junior 9HP class, I switched mid-season for a Honda NSF100,

the Danish importer
generously asked me to be the testdriver.
2009 I had to test my skills in a larger class and got a seat in a Swedish team, ran the full series in the Swedish Championship for "team Nordgren Racing" on a Honda RS125R.
I Participated the Danish Championship as well, now the Senior 9HP class, only when time allowed though, I did it with my Honda NSF100, my parents had now bought for me
The Minibike was set aside, we simply ran out of time.
